Dear Administrator,

The Delaware City Refining Company LLC ("DCRC") is submitting this Annual Report for the 2015 calendar year for hazardous waste that was exported to a foreign country from our refinery located in Delaware City, DE. Please note that Clean Harbors – Canada may have filed a similar report for the waste streams identified in this report.

This report has been prepared in accordance with the requirements of 40 CFR 262.56.

(a)(1) The EPA identification number, name, and mailing and site address of the exporter:

EPA ID No. DEN201000006
Delaware City Refining Company LLC
4550 Wrangle Hill Road
Delaware City, DE 19706

(a)(2) The calendar year covered by the report:

Transporter: Clean Harbors Environmental Services, Inc. (EPA ID# MAD039322250)
Total Amount of Waste Shipped: 13.71 Tons
Number of Shipment: 1 shipment

(a)(5) Except for hazardous waste produced by exporters of greater than 100 kg but less than 1000 kg in a calendar month, unless provided pursuant to §262.41, in even numbered years:

(i) A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated; and

Waste Environmentally Hazardous Substances (waste codes F037, K051, D018, K049)

These waste streams were produced episodically in 2015 via the clean-out of process equipment such as API separators and Dissolved Nitrogen Floatation Units (located at the onsite Waste Water Treatment Unit - WWTU), storage tanks, and portions of the sewer system. Efforts were made to reduce the volume of this waste stream by dewatering the waste either via utilizing a centrifuge or vacuum trucks to reduce the volume of the waste.

(ii) A description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent such information is available for years prior to 1984:

Waste Environmentally Hazardous Substances (waste codes F037, K051, D018, K049)

The volumes of these substances vary year-to-year as these waste streams are produced episodically via the cleaning of process equipment located at the Facility's WWTP. Therefore, a year-to-year comparison is not indicative of the DCRC's waste reduction efforts.

(a)(6) A certification signed by the primary exporter:

The certification is included as Attachment A
